Professional Take Out Menus For Free!

Here is how it works

We will create 25,000 (11x17) professional full color glossy take out menus for your restaurant. There will be a center flap on the menu with local advertisers that will sponsor your menu. All you have to do is promise to give a menu with every order. Our company was started by fellow restaurant owners, we know how competitive the restaurant industry is and that every penny counts. As you probably already know 25,000 full color glossy menus would cost you around \$2000.00. Imagine eliminating that expense 2-3 times a year!

Our company will contact the local businesses that will sponsor your menu by advertising in it. We will make sure that you approve of the sponsors and within a month or so, we will deliver 25,000 free menus that you will love.

Your restaurant will hand out the menus to each and every customer that orders from you. This is something that you are probably already doing, If you are not then you should! It is the easiest and cheapest form of advertising you can ever find, and now it will cost you nothing!
